LU Innovation

Exploratory Pre-Seed Programme

SUPPORT TO EXPLORE THE INNOVATIVE POTENTIAL OF YOUR RESEARCH

LU Innovation hereby announces the possibility to apply for funding to bridge the gap between basic research and innovation/utilization of research results in life sciences.

WHAT IS THE EXPLORATORY PRE-SEED PROGRAMME?

The programme targets research projects in life science with an innovative potential. To explore this potential, activities outside the scope of existing research project can be funded by the Exploratory Pre-Seed Programme.

The programme aims at supporting the development and verification of a hypothesis of an innovative method, product, process or technology that enables prevention, diagnostics or treatment of diseases, based on results from the main applicants own research.

The underlying research, which is the basis for the project application, should have resulted in confirmation of basic principles as well as reportable research data. The projects should, after completion, result in a formulated and verified innovative concept/hypothesis ready for other type of funding (for example [Verifying](#)).

Granted proposals receive funding up to 300 000 SEK per project, paid to appropriate host department for the duration of a maximum of 12 months.

Granted projects are expected to be reported within one month after termination/conclusion

THE EXPLORATORY PRE-SEED PROGRAMME – FOR WHOM?

The main applicant must be a researcher or PhD student employed at an academic institution that is part of [Innovationskontor Syd](#). Additionally, the applicant must have carried out, or been active in the research project which the application is based on.

WHAT CAN BE FUNDED?

Eligible expenses should be related to specific activities needed to develop/demonstrate/verify the innovative potential of the research results and/or salary costs for the project leader when relevant.

HOW TO APPLY

Applications (application form and CV) should be sent to Innovationskontor Syd (mattias.esbjornsson@innovation.lu.se). An e-mail that confirms that an application has been received will be sent to each applicant.

Download Application Form at http://innovation.lu.se/vara_tjanster/finansiering/exploratory_pre_seed

TIMELINE

Deadline for applications 29th of September, 2017

Formal decision: 10th of December, 2017

EVALUATION CRITERIA

The applications will be evaluated based on the following criteria:

1. Fulfilment of the purpose of the programme
2. Feasibility
3. Expected results and effects
